### Erasmus + Blended Intensive Program

# INVISIBLE CITIES

*Invisible Cities depicts citizens of big cities telling their stories. City dwellers who are for some reason left out, often because of the way people look at them and decide to label them. So-called 'Invisible people', as we often do not know their history. During this BIP, students will find personal stories of people who are not being heard because they are 'different' in some way, and will construct stories about how they see and feel within the city and society.*
